NOURISHING
PEOPLE AND PLANET
OUR GLOBAL RESPONSIBILITY
Improving Lives, Communities and Our Planet

Our Commitment

For the past four decades, as Herbalife Nutrition has grown to reach millions of people in 95 countries and territories worldwide, our commitment to improving lives and our communities has remained at the core of everything we do.

We’re uniquely positioned in our capacity to make a lasting difference for people seeking a healthier lifestyle, a sense of community, and an entrepreneurial business opportunity.

We make no distinction between our Global Responsibility and operating our business. Our efforts to drive positive impacts for our employees, independent distributors, communities, and the planet, while driving sustainable business growth, encompass every aspect of who we are.
Our Global Responsibility

Inspired to Act

Our Company is built around improving people’s lives through high-quality nutrition products, social support, and the opportunity to build a business.

Our global presence means we are committed to doing more to provide meaningful opportunities focused on supporting healthy communities, economic empowerment, and a thriving planet.

We are committed to the United Nations Sustainable Development Goals (UNSDGs) and have joined the UN Global Compact as a signatory member. We are dedicated to improving communities by aligning with the targets defined by the UNSDGs, specifically:
50 by 50:
Creating 50 Million Positive Impacts

Measuring Our Impact
To drive progress, we have set a goal to achieve 50 million positive impacts that nourish people and our planet by our 50th anniversary in 2030.

Our commitment is a pledge to foster tangible acts of good in the communities where we live and work. Positive impacts are measurable, easily identifiable, and verifiable, providing benefits to people, communities, and our planet.

Whether we achieve a positive impact through a meal donated, a pound of plastic removed from the waste stream or a beneficiary of a community outreach program, we will achieve these positive impacts through our combined Global Responsibility programs across our core pillars.
Nourishing Healthy Communities

1.8M+ meals donated and supplemented through Nutrition for Zero Hunger.

1 in 9 people around the world are affected by hunger and by 2050 more than 2 billion people are projected to be chronically undernourished.

Making Good Nutrition Accessible

Ending hunger is one of the world’s most pressing needs. Given our more than 40 years as a leader in nutrition, we have a strong foundation to help address this challenge.

Herbalife Nutrition Foundation*

The Herbalife Nutrition Foundation is devoted to improving the lives of children and nourishing communities around the world by making nutrition and nutrition education more accessible through partnerships with local and global organizations.

Nutrition for Zero Hunger

Our Company’s global initiative to eradicate hunger is centered around providing nutrition to those in need. The effort includes partnerships with leading non-profit organizations, including World Food Program USA, Feed the Children, Asociacion Mexicana de Bancos de Alimentos (BAMX), and more. We are building on these legacy efforts to further ramp up initiatives in the hopes of achieving zero empty plates.

* HNF is a public charity, not a subsidiary or affiliate of Herbalife Nutrition. HNF chooses to join Herbalife Nutrition in some charitable initiatives. HNF has donated approximately $1.4M in financial aid, and Herbalife Nutrition has donated approximately $2.1M in financial aid and in-kind gifts, to non-profit partners as a part of Nutrition for Zero Hunger.
Expanding Financial Inclusion

As a company focused on economic empowerment, we proudly support organizations that empower opportunities for underserved, vulnerable and minority communities. We understand the challenges and opportunities for entrepreneurs and strongly believe that small businesses are an essential part of any thriving community.

We hope to inspire the next generation of entrepreneurs through leadership and mentorship programs to support education, potential business growth, and career development in the critical field of entrepreneurship, a discipline our top independent distributors excel in.

Nourishing a Thriving Planet

Environmental Impact

Our goal to improve nutritional habits of people is to do so in a way that also results in a healthy environment.

We’re focused on packaging lifecycle, waste reduction, water management, ingredient sourcing, and food waste.

We’re expanding our efforts such as committing to zero net emissions by 2050 and improving efficiency in our manufacturing operations. In addition, we’re expanding recycling programs and creating incentives for our distributors to integrate recycling in their local businesses. For example, with more than 72,000 nutrition clubs around the globe, nutrition club owners have the potential to reduce waste significantly in their communities and we have the scale to make an even greater impact.
Transparency & Trust

Meeting the Challenge Today for a Brighter Tomorrow

We’re committed to upholding ethics and compliance across our business, supporting a diverse and inclusive workplace, and continuing transparent governance practices throughout our operations.

Given the enormity of the issues we are tackling, no single entity will be successful in solving them. We’re committed to working in partnership with governments and nongovernmental organizations to make a meaningful impact.

As we enter our fifth decade, we are focused more than ever on nourishing people and our planet. Because both lead to a healthier world — one in which everyone has access to nutritious food, equality, economic opportunity, and clean water and air.
Together, we can
Change lives.
Change communities.
Change the world.
